Denver, CO

[www.github.com/samliman](http://www.github.com/samliman)

Grounded through four years as an 'IT guy', I am a fiercely creative software developer with a passion for environmentalism and social justice. I am inspired to save the world through efficiency and precision. With 20 years of experience in customer service, I am excited by creating solutions to help my stakeholders realize their highest potential.

### Skills
